Reception Room

COTTON CHATS

TRADE-MARK REG. U.S. PAT. OFF.

DRAPER CORPORATION
HOPEDALE MASS.

NO. 201. JULY 1919.

IN THE
WORDS OF LORD READING
CHIEF JUSTICE OF ENGLAND
THE TIME HAS COME FOR THE
PEOPLE TO TAKE OFF THEIR
COATS AND GET TO WORK;
WE MUST PRODUCE GOODS;
MORE GOODS;
AND EVEN
MORE GOODS;
AND
WE MUST CONSUME LESS.

A recent number of the New Bedford, Massachusetts, Standard calls attention to the well worn saying

YOU CAN'T RAISE YOURSELF BY YOUR BOOT STRAPS

and adds

> "Production is the only road to real permanent improvement financially. There is plenty of chance in the cotton mills for increasing production per capita without increasing the physical exertion of the workers."

To make this increase per capita, the operatives must either tend more machines or work increased hours; as mill-hours have been reduced the only alternative is more machines per operative. To tend more machines the individual machine must be more nearly automatic and at the same time so improved that its product will be as good or better in quality than the product from the machine replaced.

In the weave room

THE NORTHROP LOOM MEETS THESE CONDITIONS.

We have on our books at the present time orders for looms for weaving the following goods:
